Claim Rejections - 35 USC § 112

1. Claims 14-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 14, "the interior" lacks proper antecedent basis.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 14-15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Blum (US 2,078,227) in view of Matteau et al. (US 6,206,008) and Official Notice. Blum discloses a package with a top, a bottom and at least one sidewall which defines an interior space, the side wall having a tear line 5 extending across the side wall substantially midway between the top and bottom and parallel to the top and bottom as shown in Figure 1. A plurality of tobacco articles 1,2 arranged in the interior of the package. The tobacco articles being arranged in pair stacked one on top of another extending from the top to bottom of the package and the contact surfaces of the abutting tobacco articles are substantially in a region of the tear line in the side wall of the package. Although Blum doesn't show filters, Matteau et al. shows a typical tobacco product with filters abutting one another in Figure 7A. Therefore, a plurality of tobacco articles with filters at an end thereof may be stored therein. In addition, it would have been obvious to store

more than two smoking articles within the package. Certainly, a package of 40 smoking articles arranged in a package is conventionally and well known in the cigarette packaging art.

Allowable Subject Matter

4. Claims 1-13 are allowed.
